

 **Rule Changes** 
- EFFECTIVE AFTER THE JUNE 13, 2020 DRAWING -
Starting advertised jackpots and minimum roll increases between drawings will be eliminated.

GAME SALES AND INTEREST RATES TO DETERMINE JACKPOTS

The Lotto America Product Group, the decision-making body for the Lotto America® game, recently announced rule changes that starting advertised jackpots and minimum roll increases between drawings will be eliminated following the June 13, 2020 drawing.

Currently, the starting jackpot is \$2 million. Minimum jackpot increases between drawings for Lotto America is \$50,000.

Following the June 13, 2020 Lotto America drawing, all future jackpot increases, minimum roll increases and starting advertised jackpots will be based on game sales and interest rates. The jackpot amounts will be announced by the group prior to each drawing.

Players in many U.S. lottery jurisdictions remain under stay at home orders or recommendations, which have affected normal consumer behaviors. The rule changes are necessary to ensure that ticket sales can support the jackpot and other lower-tier cash prizes.
