

Lottery Retailer License Application Instructions

March 2014

Thank you for your interest in becoming a licensed retailer to sell lottery tickets in partnership with the North Dakota Lottery. The Lottery, our state's newest business, will prove exciting and rewarding for lottery retailers.

Please read the instructions carefully before completing the application. Also, it is important that you read the documents or forms titled:

- "General Information for Applicants of a Lottery Retailer License" - This provides information on eligible businesses, selection criteria, licensing process, and other interesting items.
- "Lottery Record/Credit Check" - This form is required in order to complete a criminal history record check and a credit check – the record check determines whether an individual has a criminal history record that would disqualify the applicant for a license (see North Dakota Century Code section 53-12-13 (b)(1))
- "Common Questions" - This provides answers to common questions about the application and licensing process, especially related to cooperatives.

Information reported on an application form is confidential, except the applicant's name and business address.

A separate application must be completed for each business applying for a license, including each store within a chain of stores.

Single Business/Chain Store Applications

If an applicant is completing an application for only one business, pages 1 and 2 of the "Lottery Retailer License Application" must be completed.

If an applicant, such as a chain store, is completing application for more than one business and is submitting all the applications at the same time, page 1 of the "Lottery Retailer License Application" must be completed for each of the businesses, and page 2 may be completed for only one of the businesses.

Applications from chain stores should be submitted through the chain stores' central office, to avoid duplicate applications. If the business is part of a chain, please consult with the central office before completing the application. For businesses to be classified as part of a chain of stores, all the businesses must have: 1) the same ownership; 2) all major financial transactions controlled, managed, and major payments made by the central office; 3) the same Federal Employer Identification Number; and 4) the ultimate management and control of the businesses reside with the central office.

Completing the Application

Please complete *all* applicable items on the application. Otherwise, processing of the application may be delayed or the incomplete application may be returned to the applicant for completion. The application has been designed to be clear and easy to complete.
